Ghansoli, Navi Mumbai, India

PROFESSIONAL SUMMARY

Final year B.Sc. Information Technology student with a strong foundation in web development, database management and problem-solving. Experienced in building responsive web applications using modern tools and technologies. Seeking an entry-level opportunity to apply my technical skills, gain industry experience and contribute to the organization's success while continuously learning and improving.

CORE SKILLS

Programming Languages : Python, Java, C++, JavaScript
Web Technologies : HTML, CSS, JavaScript
Database : MySQL, MongoDB
Tools & Platforms : VS Code, NetBeans, Eclipse, Git

WORK EXPERIENCE

Web Development Intern | NetTech India

Aug 2026 – Present
Thane, India

- Worked on web development tasks during my internship at NetTech India.
- Gained hands-on experience in building and improving web applications.
- Improved frontend and backend development skills through real-world projects and industry exposure.

Frontend Development Intern | Sprock IT Solutions

Aug 2026 – Sep 2026
Remote

- Completed a Frontend Development program at Sprock IT Solutions.
- Worked on assigned projects and tasks to enhance UI/UX and frontend development skills.
- Gained practical experience in HTML, CSS and JavaScript through real-world project development.

PROJECTS

Helpdesk System | Python (Flask), MySQL, HTML, CSS, JavaScript

- A web-based helpdesk system that allows users to submit and manage support requests efficiently.
- Includes a user-friendly interface, ticket management, and backend integration for handling support data.
- Implemented features like user login, ticket creation, status tracking and admin panel.

FitCore – Gym Management System | Java, MySQL, HTML, CSS, JavaScript

- Developed a gym management system to streamline gym operations and improve member management.
- Features include admin login & dashboard, gym member management, trainer & membership management, and a modern responsive UI.
- Implemented attendance tracking, membership plans and workout management.

CryptoDash – Cryptocurrency Dashboard | Python (Flask), MySQL, HTML, CSS, JavaScript (CoinGecko API)

- A real-time cryptocurrency dashboard featuring live crypto data, user authentication, watchlist, portfolio, and interactive charts.
- Integrated CoinGecko API to fetch live market data and display coin prices, trends and detailed information.
- Implemented a responsive UI with search and dark theme.

Car Rental Platform | HTML, CSS, JavaScript

- A responsive car rental platform with car listings, detailed vehicle pages, search & filtering and a booking interface.
- Developed a modern and user-friendly UI to provide a smooth booking experience.
- Implemented features like car search, filters and dynamic content loading.

Movie Website | HTML, CSS, JavaScript (TMDB API)

- A modern and responsive movie website for browsing and exploring movies.
- Features include home page, trending movies, movie cards, detailed movie information and responsive design.
- Integrated TMDB API to fetch and display movie data.
